Memorandum

April 24, 2008
Agenda Item 6.4.2

DATE: April 14, 2008
TO: CMA Board
FROM: Administration and Legislation Committee
SUBJECT: I-580 San Leandro Soundwall Project:
Cooperative Agreement with Caltrans for Right of Way and Construction

Action Requested

It is recommended that the CMA Board authorize the Executive Director, or his designee, to sign the Right of Way and Construction Cooperative agreements with Caltrans for the I-580 San Leandro Soundwall Project.

Next Steps

The Cooperative agreements will be finalized and executed following review by CMA's and Caltrans' legal counsels.

Discussion

The CMA is the sponsor of the I-580 San Leandro Soundwall Project. The CMA is also responsible for the Advertise, Award and Administration (AAA) component of the project. The detailed design plans, specifications, and estimates (PS&E) documents for the project are currently being prepared. A 65% PS&E package was submitted to Caltrans in February 2008.

Caltrans has prepared draft cooperative agreements for the Right of Way and Construction of the project. The execution of the cooperative agreement with Caltrans will permit the work by CMA and its contractors in the Caltrans Right of Way.

It is recommended that the Executive Director, or his designee, be authorized to execute these cooperative agreements with Caltrans.

Financial Impact

Funding for the work detailed in the cooperative agreements will be provided through existing programmed State and Federal funds. Costs associated with the CMA administration of the project are included in the current CMA budget.
